Compact
totally bdd
con. → cauchy
Cauchy converge
Complete
uniform eq. preserve completeness
Cauchy + subseq converge
complete + closed subspace = complete
Finite union, Infinite intersection
Self-map, Fixed pt
Banach
Sup(d/d') < 1
Contraction
uniform cts
pointwise con.
B[a,b] C[a,b]
uniform con.
Complete space
Cauchy f_n
B[a,b] C[a,b]
uniform cauchy
